

ÍNDICE GENERAL
Volúmenes 1 a 39
1956–1994

- Abian, A. *A property of Baire first category sets.*
20, (1975) 33–34.
- Abian, A. *A special class of rings of functions and their finitely subcoverable extensions.*
22, (1977) 69–72.
- Abian, A. *On the isomorphisms of Boolean rings.*
15, (1970) 44–47.
- Abian, A. *The cardinality of ordinal exponentiation.*
17, (1972) 6–9.
- Abian, A. and Eslami, E. *Solvability of infinite systems of infinite linear equations.*
27, (1982) 57–64.
- Abreu, J.L. *A note on harmonizable and stationary sequences.*
15, (1970) 48–51.
- Abreu, J.L. *Prediction theory for non-stationary generalized stochastic processes.*
16, (1971) 54–57.
- Abreu, J.L. and Fetter, H. *The shift operator of a non-stationary sequence in Hilbert space.*
28, (1983) 49–58.
- Abreu, J.L. and Salehi, H. *Schauder basic measures in Banach and Hilbert spaces.*
29, (1984) 71–84.
- Acosta Abreu, R.S. *Control de cadenas de Márkov con parámetros desconocidos y espacio de estados métrico.*
32, (1987) 15–34.
- Acosta Abreu, R.S. *Control de procesos de Markov parcialmente observables y con parámetros desconocidos: criterio de ganancia promedio.*
32, (1987) 49–70.
- Adem, A. *Las relaciones de Adem.*
36, (1991) 1–6.
- Adem, A. and Milgram, R.J. *Invariants and cohomology of groups.*
37, (1992) 1–25.

- Adem, J. *Un criterio cohomológico para determinar composiciones esenciales de transformaciones.*
1, (1956) 38–48.
- Adem, J. *Sobre la pareja exacta de cohomotopía.*
1, (1956) 72–84.
- Adem, J. *Sobre la fórmula del producto para operaciones cohomológicas de segundo orden.*
4, (1959) 42–65.
- Adem, J. *Sobre operaciones cohomológicas secundarias.*
7, (1962) 95–110.
- Adem, J. *Some immersions associated with bilinear maps.*
13, (1968) 95–104.
- Adem, J. *On nonsingular bilinear maps II.*
16, (1971) 64–70.
- Adem, J. *Construction of some normed maps.*
20, (1975) 59–75.
- Adem, J. *On maximal sets of anticommuting matrices.*
23, (1978) 61–67.
- Adem, J. *On the Hurwitz problem over an arbitrary field I.*
25, (1980) 29–51.
- Adem, J. *On the Hurwitz problem over an arbitrary field II.*
26, (1981) 29–41.
- Adem, J. *On Yuzvinsky's theorem concerning admissible triples over an arbitrary field.*
29, (1984) 65–70.
- Adem, J. *Classification of low dimensional orthogonal pairings.*
31, (1986) 1–28.
- Adem, J. and Gitler, S. *Secondary characteristic classes and the immersion problem.*
8, (1963) 53–78.
- Adem, J. and Gitler, S. *Non-immersion theorems for real projective spaces.*
9, (1964) 37–50.
- Adem, J., Gitler, S., and James, I.M. *On axial maps of a certain type.*
17, (1972) 59–62.
- Adem, J., Gitler, S., and Mahowald, M. *Embedding and immersion of projective spaces.*
10, (1965) 84–88.

- Aguilar, M. A. *Characteristic numbers for the bordism of immersions.*
37, (1992) 27–39.
- Aguilar, M.A. and Pastor, G. *On maps cobordant to embeddings.*
31, (1986) 61–68.
- Alas, O.T. and Wilson, R.G. *Some results concerning the tightness of chain-net spaces.*
33, (1988) 39–44.
- Albert, A.A. *The finite planes of Ostrom.*
11, (1966) 1–13.
- Albis González, V.S. *The maximal abelian extension of a local field as a kummerian extension.*
19, (1974) 1–8.
- Alexander, J.C. *Unitary approximations to framed bordism.*
20, (1975) 1–5.
- Almendra, G. and Wawrzyńczyk, A. *Multivariable spectral theory of algebras of analytic functions.*
39, (1994) 19–38.
- Alonso y Coria, A. and Canavati, J.A. *Some spectral properties of positive operators on a Banach space.*
25, (1980) 1–14.
- Anderson, D.W. *Resolutions of fibrations.*
16, (1971) 26–28.
- André, J. and Seibert P. *Piecewise continuous differential equations.*
5, (1960) 242–245.
- Antoniano, E., Gitler, S., Ucci, J., and Zvengrowski, P. *On the K-theory and parallelizability of projective Stiefel manifolds.*
31, (1986) 29–46.
- Antoniano, E. *La acción del álgebra de Steenrod sobre las variedades de Stiefel proyectivas.*
22, (1977) 41–47.
- Antoniano, E. and Gitler, S. *Axial maps and cross-sections.*
29, (1984) 5–10.
- Antosiewicz, H.A. and Dugundji, J. *Parallelizable flows and Lyapunov's second method.*
5, (1960) 144–145.
- Arraut, J.L. *Limit sets and periodic orbits.*
10, (1965) 31–41.

- Arraut, J.L. *Topologías que caracterizan un flujo continuo.*
10, (1965) 42–45.
- Astey, L. and Davis, D.M. *Nonimmersion of real projective spaces implied by BP*
25, (1980) 15–22.
- Auslander, J., Bhatia, N.P., and Seibert, P. *Attractors in dynamical systems.*
9, (1964) 55–66.
- Baker, H. *A cohomology-computing cover for pseudoconcave families.*
18, (1973) 42–49.
- Baker, H. *On families of hypersurfaces with weakly positive normal bundle.*
17, (1972) 26–31.
- Banyaga, A. and Pulido, J. *On the group of contact diffeomorphisms of R^{2n+1} .*
23, (1978) 43–47.
- Barocio, S. *Note on a three-dimensional singularity of a continuous vector field.*
5, (1960) 296–298.
- Barocio, S. *Singularidades de sistemas diferenciales en el plano.*
4, (1959) 1–25.
- Barocio, S. *Sobre las trayectorias en la vecindad de una singularidad tridimensional.*
1, (1956) 57–58.
- Bass, R.W. *Zubov's stability criterion.*
4, (1959) 26–29.
- Bastida, J.R. *Grupos y homomorfismos asociados a un semigrupo, I.*
8, (1963) 26–45.
- Bastida, J.R. *Grupos y homomorfismos asociados con un semigrupo, II.*
9, (1964) 7–16.
- Bastida, J.R. *Grupos y homomorfismos asociados con un semigrupo, III.*
13, (1968) 84–87.
- Bastida, J.R. *On general Galois theorem.*
17, (1972) 18–25.
- Basu, A.K. *The order of approximation in the random central limit theorem for maximum sums in non-identical case.*
27, (1982) 29–34.
- Bellman, R. *Dynamic programming and classical analysis.*
5, (1960) 79–89.

- Bellman, R. and Cooke, K.L. *Stability and asymptotic theory for linear differential-difference equations.*
5, (1960) 277–283.
- Bello, I. *El lema de Urysohn y el teorema de extensión de Tietze en espacios uniformes.*
13, (1968) 58–61.
- Bello, I. y Michaelides, G.J. *Un espacio de Hausdorff numerable y conexo cuyo primer grupo de cohomología de Čech es isomorfo a Z .*
15, (1970) 7–13.
- Bello, I. y Reed, J.H. *Una nota sobre el círculo de pseudo arcos.*
15, (1970) 1–6.
- Berrick, A.J., Feder, S., and Gitler, S. *Symmetric axial maps and embeddings of projective spaces.*
21, (1976) 39–41.
- Betancor, J.J. *A new inversion formula and Abelian Theorems for a generalized Hankel transform.*
35, (1990) 71–78.
- Bhatia, N.P., Seibert, P., and Auslander, J. *Attractors in dynamical systems.*
9, (1964) 55–66.
- Bhatia, N.P. *Weak attractors in dynamical systems.*
10, (1965) 56–64.
- Blackwell, D. and Dubins, L. *An elementary proof of an identity of Gould's.*
11, (1966) 108–110.
- Bojdecki, T. *On optimal stopping of independent random variables appearing according to a renewal process, with random time horizon.*
22, (1977) 35–40.
- Boone, J.R. *On the tightness of a topological space.*
26, (1981) 43–48.
- Bosch, C., Falconi, M., Hernández, C., and Vorel, Z. *Functional integral equations of Volterra type.*
23, (1978) 36–41.
- Bousfield, A. K. and Davis, D. M. *On the unstable Adams spectral sequence for SO and U , and splittings of unstable Ext groups.*
37, (1992) 41–53.
- Bromberg, S. *Un teorema de extensión en clase C^1 .*
27, (1982) 35–44.

- Browder, W. *Inertia groups of homotopy projective spaces.*
17, (1972) 10–13.
- Bujalance, E. *Klein surfaces as orbit spaces of NEC groups.*
27, (1982) 45–50.
- Canals, I. *Generalización del concepto de algebraicidad sobre campos valuados completos.*
13, (1968) 63–83.
- Canals, I. y Ortiz, J.J. *La base mínima de un campo de números algebraicos.*
15, (1970) 14–21.
- Canals, I. y Tomás, F. *Sobre ideales de funciones p -ádicas enteras y polinomios de aproximación.*
12, (1967) 92–99.
- Canavati J. A. *An extension result for functions defined on a straight layer.*
38, (1993) 23–32.
- Canavati, J.A. *Limits of integrals involving n -tuply periodic functions.*
20, (1975) 23–28.
- Canavati, J.A. and Alonso y Coria, A. *Some spectral properties of positive operators on a Banach space.*
25, (1980) 1–14.
- Canavati, J.A. and Díaz, M. *On approximation numbers, n -diameters and measure of non-compactness.*
21, (1976) 46–51.
- Cárdenas, H. *El álgebra de cohomología del grupo simétrico de grado p^2 .*
10, (1965) 1–30.
- Cárdenas, H. y Lluís, E. *El normalizador del p -grupo de Sylow del grupo simétrico S_{p^n} .*
9, (1964) 1–6.
- Castro, A. *Existence of infinitely many solutions for a class of superlinear problems.*
26, (1981) 7–12.
- Cavazos-Cadena R. *Cesàro convergence of the undiscounted value iteration method in Markov decision processes under the Lyapunov stability condition.*
38, (1993) 33–47.
- Cavazos-Cadena, R. *Average optimal stationary policies in Markov decision processes under weak stability conditions.*
35, (1990) 15–24.

- Ceder, J.G. *Generalized sixpartite problems.*
9, (1964) 28–32.
- Cesari, L. *Existence theorems for periodic solutions of nonlinear differential systems.*
5, (1960) 24–41.
- Chatterji, S.D. *Positive definite kernels.*
28, (1983) 59–66.
- Cohen, F. R. *On the Whitehead square, Cayley-Dickson algebras, and rational functions.*
37, (1992) 55–62.
- Cohen, J. M. and Colonna F. *The Bloch space of a homogeneous tree.*
37, (1992) 63–82.
- Coleman, C. *Forced oscillations in 3-space.*
5, (1960) 284–289.
- Colonna F. and Cohen, J. M. *The Bloch space of a homogeneous tree.*
37, (1992) 63–82.
- Comer, S.D. *Elementary properties of structures of sections.*
19, (1974) 78–85.
- Cooke, K.L. and Bellman, R. *Stability and asymptotic theory for linear differential-difference equations.*
5, (1960) 277–283.
- Corona-Burgueño, J.F. *A model of branching processes with random environments.*
21, (1976) 15–27.
- Crabb, M.C. and James, I.M. *Fibrewise configuration spaces.*
37, (1992) 83–97.
- Cronin, J. *Lyapunov stability and periodic solutions.*
9, (1964) 22–27.
- Crossley, M. D. and Hubbuck, J. R. *Not the Adem relations.*
37, (1992) 99–107.
- Davis, D. M. and Bousfield, A. K. *On the unstable Adams spectral sequence for SO and U , and splittings of unstable Ext groups.*
37, (1992) 41–53.
- Davis, D.M., Gitler, S., Iberkleid, W., and Mahowald, M.E. *Orientability of bundles with respect to certain spectra.*
24, (1979) 49–56.

- Davis, D.M. *The cohomology of the spectrum $b\mathbb{J}$* .
20, (1975) 6–11.
- Davis, D.M. and Astey, L. *Nonimmersion of real projective spaces implied by BP*
25, (1980) 15–22.
- de Neymet de Christ, S. *Algunas relaciones en la torsión de Whitehead*.
12, (1967) 55–70.
- Dehay, D. *Shift groups for a weakly harmonizable process on a locally compact abelian group*.
36, (1991) 23–28.
- Dherte, H. and Félix, T. *Free circle actions on rational suspensions*.
37, (1992) 109–113.
- Díaz, M. and Canavati, J.A. *On approximation numbers, n -diameters and measure of non-compactness*.
21, (1976) 46–51.
- Dieck, T. *Optimal rational curves and homotopy planes*.
37, (1992) 115–138.
- Donoghue, W. and Masani, P. *A class of invalid assertions concerning function Hilbert spaces*.
28, (1983) 77–80.
- Drachman, B. *A diagonal map for the cobar construction*.
12, (1967) 81–91.
- Dubins, L. and Blackwell, D. *An elementary proof of an identity of Gould's*.
11, (1966) 108–110.
- Dugundji, J. and Antosiewicz, H.A. *Parallelizable flows and Lyapunov's second method*.
5, (1960) 144–145.
- Durán, B.S., Hernández-Lerma, O., and Esparza, S.O. *Recursive nonparametric estimation of nonstationary Markov processes*.
33, (1988) 57.
- Eslami, E. and Abian, A. *Solvability of infinite systems of infinite linear equations*.
27, (1982) 57–64.
- Esparza, S.O., Durán, B.S., and Hernández-Lerma, O. *Recursive nonparametric estimation of nonstationary Markov processes*.
33, (1988) 57.

- Espinoza, E., Plis, A., and Suárez, R. *About a nonlinear system in $R \times R^2$ with one-dimensional control.*
24, (1979) 83–90.
- Etayo-Gordejuela, J.J. *NEC subgroups in Klein surfaces.*
29, (1984) 35–42.
- Ewert, J. *On quasi-metrization of bitopological spaces.*
33, (1988) 33–38.
- Fadell, E. and Husseini, S. *Category weight and Steenrod operations.*
37, (1992) 151–161.
- Falconi, M., Hernández, C., Vorel, Z., and Bosch, C. *Functional integral equations of Volterra type.*
23, (1978) 36–41.
- Feder, S. *Non-immersion theorems for complex and quaternionic projective spaces.*
11, (1966) 62–67.
- Feder, S. *The reduced symmetric product of a projective space and the embedding problem.*
12, (1967) 76–80.
- Feder, S., Berrick, A.J., and Gitler, S. *Symmetric axial maps and embeddings of projective spaces.*
21, (1976) 39–41.
- Feder, S. and Gitler, S. *Mappings of quaternionic projective spaces.*
18, (1973) 33–37.
- Feder, S., Gitler, S., and Mahowald, M.E. *On the stable homotopy type of stunted projective spaces.*
22, (1977) 1–5.
- Félix, T. and Dherite, H. *Free circle actions on rational suspensions.*
37, (1992) 109–113.
- Fernández, B. and Gorostiza, L.G. *Hydrodynamic and fluctuation limits of branching particle systems with changes of mass.*
35, (1990) 25–38.
- Fetter, H. and Abreu, J.L. *The shift operator of a non-stationary sequence in Hilbert space.*
28, (1983) 49–58.
- Flores, R. and Vorel, Z. *Necessary and sufficient conditions for continuous dependence for Volterra operator equations.*
23, (1978) 34–35.

- Furukawa, Y. *Whitehead square in ex-homotopy theory.*
37, (1992) 163–165.
- Gallo, D.M. *A note on the correspondence between Fuchsian groups and algebraic curves.*
27, (1982) 25–28.
- Gallo, D.M. and Porter, R.M. *Embedding the deformation space of a Fuchsian group of the first kind.*
26, (1981) 49–56.
- Gamboa, J.M. *A note on hyperplane sections of real algebraic sets.*
29, (1984) 59–64.
- García, A. *Sobre el orden del mapeo de pegue de las celdas en CP_n^{n+k} .*
25, (1980) 53–58.
- García, O.C. *Colimits and coreflective subcategories in partially ordered topological spaces.*
18, (1973) 72–81.
- García, O.C. *Generalization of Stone and Shirota theorems to partially ordered topological spaces.*
19, (1974) 14–25.
- García-Máynez, A. *Algunos resultados en teoría de funciones parcialmente continuas.*
14, (1969) 1–8.
- García-Máynez, A. *Compactificaciones y metrización de espacios topológicos.*
15, (1970) 52–57.
- García-Máynez, A. *Funciones abiertas.*
17, (1972) 63–70.
- García-Máynez, A. *On σ -connected sets.*
16, (1971) 46–51.
- García-Máynez, A. *On σ -unicoherence.*
22, (1977) 6–9.
- García-Máynez, A. *Shrinkability and the KC-properties.*
21, (1976) 42–45.
- García-Máynez, A. *Sobre algunas identidades de Jensen y Gould.*
14, (1969) 70–74.
- García-Máynez, A. *Some generalizations of the Hausdorff separation axiom.*
16, (1971) 38–41.
- García-Máynez, A. *Some results on Wallman compactifications.*
36, (1991) 17–22.

- García-Máynez, A. *Un resultado en análisis combinatorio.*
15, (1970) 33–36.
- García-Máynez, A. and Wilson, R. *Classes of topological spaces preserved under real compactifications.*
31, (1986) 57–60.
- Garner, T.B. *Vector fields on manifolds with boundary.*
18, (1973) 89–96.
- Gilmer, R. *An example in the theory of ordered semigroups.*
15, (1970) 42–43.
- Gitler, S. *Espacios fibrados por H -espacios.*
7, (1962) 71–84.
- Gitler, S. *Nota sobre la transpotencia de Cartan.*
7, (1962) 85–91.
- Gitler, S. *The cohomology of blow ups.*
37, (1992) 167–175.
- Gitler, S. and Adem, J. *Secondary characteristic classes and the immersion problem.*
8, (1963) 53–78.
- Gitler, S. and Adem, J. *Non-immersion theorems for real projective spaces.*
9, (1964) 37–50.
- Gitler, S., Adem, J., and James, I.M. *On axial maps of a certain type.*
17, (1972) 59–62.
- Gitler, S., Adem, J., and Mahowald, M. *Embedding and immersion of projective spaces.*
10, (1965) 84–88.
- Gitler, S. and Antoniano, E. *Axial maps and cross-sections.*
29, (1984) 5–10.
- Gitler, S., Antoniano, E., Ucci, J., and Zvengrowski, P. *On the K -theory and parallelizability of projective Stiefel manifolds.*
31, (1986) 29–46.
- Gitler, S., Berrick, A.J., and Feder, S. *Symmetric axial maps and embeddings of projective spaces.*
21, (1976) 39–41.
- Gitler, S., Davis, D. M., Iberkleid, W., and Mahowald, M.E. *Orientability of bundles with respect to certain spectra.*
24, (1979) 49–56.

- Gitler, S. and Feder, S. *Mappings of quaternionic projective spaces.*
18, (1973) 33–37.
- Gitler, S., Feder, S., and Mahowald, M.E. *On the stable homotopy type of stunted projective spaces.*
22, (1977) 1–5.
- Gitler, S., Glazebrook, J.F., and Verjovsky, A. *On the generalised Riemann-Hurwitz formula.*
30, (1985) 1–12.
- Gitler, S. and Lam, K.Y. *The generalized vector field problem and bilinear maps.*
14, (1969) 65–69.
- Gitler, S. and Mahowald, M. *The geometric dimension of real stable vector bundles.*
11, (1966) 85–107.
- Gitler, S. and Mahowald, M. *The geometric dimension of real stable vector bundles. Addendum.*
12, (1967) 32–34.
- Gitler, S. and Mahowald, M. *Some immersions of real projective spaces.*
14, (1969) 9–21.
- Gitler, S. and Milgram, R.J. *Unstable divisibility of the Chern character.*
16, (1971) 1–14.
- Glazebrook, J. F. and Sundararaman, D. *Deformations of foliated quaternionic structure and the twistor correspondence.*
37, (1992) 177–187.
- Glazebrook, J.F., Gitler, S., and Verjovsky, A. *On the generalised Riemann-Hurwitz formula.*
30, (1985) 1–12.
- Glazebrook, J.F. and Verjovsky, A. *Residual circuits in generalized monoidal transformations.*
33, (1988) 19–26.
- Gómez-Mont, X. *Symmetric products of hyperelliptic curves.*
26, (1981) 21–28.
- González Acuña, F. *Dehn's construction of knots.*
15, (1970) 58–79.
- González, J., Imaz, C., and Vorel, Z. *Functional and ordinary differential equations.*
18, (1973) 64–69.

- Gorostiza, L.G. *A note on the limits of branching processes.*
21, (1976) 62–64.
- Gorostiza, L.G. *Limit theorem for certain random motions of R^d .*
21, (1976) 52–61.
- Gorostiza, L.G. *Some limit theorems in renewal theory.*
17, (1972) 32–39.
- Gorostiza, L.G. and Fernández, B. *Hydrodynamic and fluctuation limits of branching particle systems with changes of mass.*
35, (1990) 25–38.
- Gorostiza, L.G. and Kaplan, N. *Invariance principle for branching random motions.*
25, (1980) 63–86.
- Gorostiza, L.G. and Moncayo, A.R. *Invariance principle for sums of independent random variables on a binary tree.*
19, (1974) 44–47.
- Graffi, D. *Alcuni risultati qualitativi e quantitativi sulle equazione differenziali non lineari.*
5, (1960) 13–23.
- Greenberg, P. *Les espaces de bracelets, les complexes de Stasheff et le groupe de Thompson.*
37, (1992) 189–201.
- Griego, R.J. and Moncayo, A. *Random evolutions and piecing out of Markov processes.*
15, (1970) 22–29.
- Gutiérrez, M.A. *Homology of knot groups: I Groups with deficiency one.*
16, (1971) 58–63.
- Haibao, D. and Rees, E. *Functions whose critical set consists of two connected manifolds.*
37, (1992) 139–149.
- Hale, J.K. *On the characteristic exponents of linear periodic differential systems.*
